

HEIGHT CHART

HEIGHTS ACHIEVABLE WITH EXTENSIONS

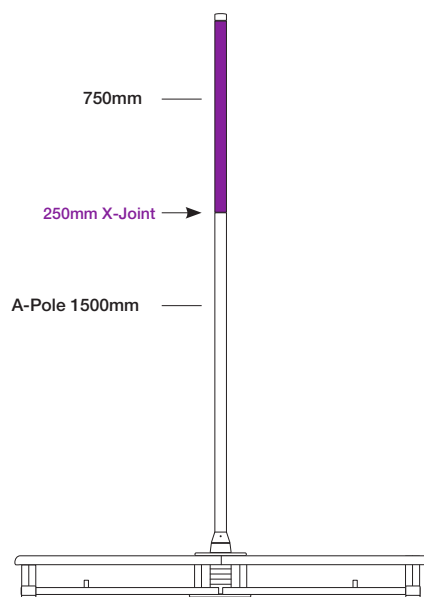

Before you put up your X-STAGE LITE make sure you have measured your floor to ceiling height. We have given you the heights for the pole parts and also the lowest ceiling height needed. These are different because you need an additional 135mm to be able to put the pole up and down safely. Any questions please contact your local office.

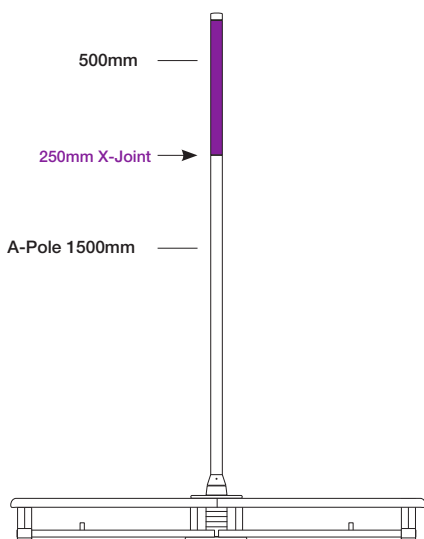

Total height: 3000mm - 118.1"
Room Height Needed - 3135mm (123.4")

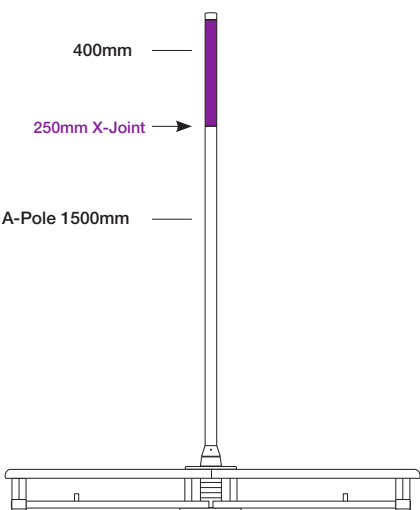

Total height: 2500mm - 98.4"
Room Height Needed - 2635mm (103.7")
